Sir:

**INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(b)**

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicants bring to the attention of the Examiner the documents on the attached Form PTO/SB/08. This Information Disclosure Statement is being filed before the mailing date of a first Office Action after the filing of a Request for Continued Examination in the above-referenced application.

Copies of the listed foreign and non-patent literature documents are attached.

Copies of the U.S. patent publications are not enclosed.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached Form PTO/SB/08.

Applicants submit the last two documents listed in the non-patent literature documents section of the attached Form PTO/SB/08 in view of a provisional double

patenting rejection over the present application that issued in an Office Action dated July 2, 2004 in copending U.S. Application No. 09/534,038. The Office Action dated July 2, 2004, as well as all other Office Actions that have been issued and claim amendments that have been filed in Application No. 09/534,038 prior to November 24, 2004 were submitted in an Information Disclosure Statement filed in this case on November 24, 2004. The last two documents listed in the non-patent literature documents section of the attached Form PTO/SB/08 are submitted herewith as an update to those November 24, 2004 submissions.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement not otherwise provided for, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
